## ABOUT ME

My name is Aram Arzumanyan, I have a higher education, I worked for four years as a wrestling coach, physical education lecturer. I have always been interested in the field of information technology, I have completed 7-month advanced web programming courses, I know the programming languages mentioned above. I would like to work in this field.

**I want to work in the field of information technologies, deepen my knowledge and become a specialist in demand in the labor market.**
